Amsonic Hamo Germany invests in a Mühldorf branch

The Amsonic Hamo organization in Germany has grown significantly since the beginning of the year. Besides strengthening the sales and service structure the team now includes engineers, quality- and project managers.

With the new setup, Amsonic Hamo is now able to extend the portfolio of equipment and services. Amsonic Hamo is now able to offer retrofit (modernization) and upgrades (extensions) for equipment of own brand and competitors.

Related to this expansion, Amsonic Hamo has opened a new branch in Germany located in Mühldorf (close to Munich) and the organization is available for your service.

Amsonic Hamo GmbH
Edisonstraße 12
